EVENT DESCRIPTION

- The event is a set of webinar series and short interactive classes followed by a competition.
- Participants are requested to collect their electricity bill prior to the competition.
- Obtain historical energy consumption for the past 6 months from KSEB Ltd's WSS online portal.-Bill 1 (This is a fairly simple process and tutorials for this will be shared soon)
- Short Webinars and Interactive Classes on alternative Saturdays by prominent industry experts.
- Participants will have to again upload the electricity bill after the event is over
- Both sets of bills along with data from the WSS portal will be evaluated and the percentage of power consumption reduced will be calculated.
- This data will be cross-verified with data we obtain from KSEB Ltd with your permission to ensure no malpractice or wrongdoing.
- The top 3 Participants who have managed to reduce their power consumption to the maximum wins a cash prize.
- Additional gifts to active participation in webinars.
